KIDS RUG

Children's carpet is a floor mat specially designed for children, providing a comfortable and safe environment. There are various materials and styles of carpets on the market, and parents need to choose according to their children's age, activity habits, and decoration style. When choosing, it is important to consider practicality, durability, children's preferences, and safety.

Item number: HR22BM0061A
 Fabric:
 Upper: 200g/m² Bleached flannel
 Centre: 10mm thick low elasticity
 and dust-free sponge
 Bottom: Snowflake dot plastic cloth
 Size:100*100cm/Customizable

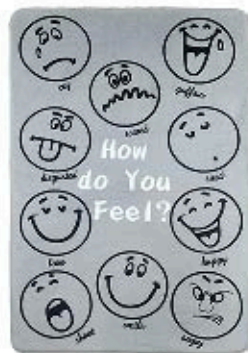

Item number: HR22BM0062A
 Fabric:
 Upper: 200g/m² Bleached flannel
 Centre: 10mm thick low elasticity
 and dust-free sponge
 Bottom: Snowflake dot plastic cloth
 Size:80*120cm/Customizable

Item number: HR22BM0063A
 Fabric:
 Upper: 200g/m² Bleached flannel

BEDROOM RUG

The choice of bedroom carpet is related to comfort, environmental friendliness, and aesthetics. Laying a carpet can improve the comfort of the area around the bed, and a small bedroom is suitable for wool carpeting. When choosing a carpet, in addition to considering comfort and color patterns, attention should also be paid to the material and brand to ensure quality.

LIVING ROOM CARPET

When choosing a living room carpet, it is necessary to consider the decoration style, material, size and shape, function, brand and price, as well as the laying method. Carpets should correspond to the style of the living room decoration, and materials such as hand knotted carpets, silk carpets, and wool carpets can be selected. The size and shape are selected based on the size of the living room and the arrangement of furniture. Carpets can add vitality and a warm atmosphere, divide space, and have two laying methods: full laying and area laying. The specific size selection may also vary.

FAUX RABBIT FUR CARPET

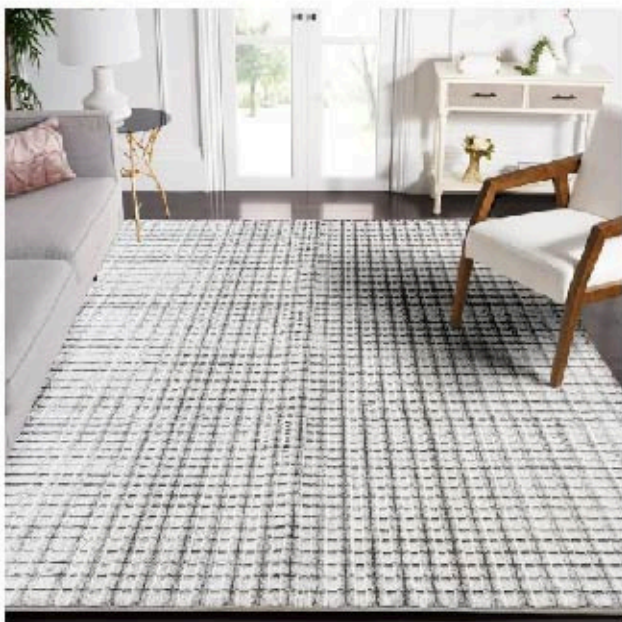

Faux rabbit fur carpet is made of rabbit fur-like material and a sandwich structure of sponge and non-slip backing to make you feel more comfortable and soft, this softness comes from the plush fibers. It is large enough to cover the area in front of your sofa, adding a premium texture to your room, which also enhances your home's taste.

OTHER TYPES

There are many types of carpets, classified by material, including pure wool carpets, blended carpets, synthetic fiber carpets, plastic carpets, etc. Pure wool carpets are made from native sheep wool, which has long fibers, high tensile strength, good elasticity, and luster. The fibers are slightly coarse and powerful, making them the highest quality raw material for weaving carpets in the world. Blended carpets are made by adding a certain proportion of chemical fibers to pure wool fibers to improve their performance. Plastic carpets are made of materials such as polyvinyl chloride.
